PEPTIDES

PRODUCT SPECIFICATION / RESEARCH REFERENCE

KPV 10mg

ANKH / PRODUCT 0072

CHEMICAL IDENTITY & SPECIFICATIONS

Strength / quantity	10mg
Supplied form	Lyophilised powder
Chemical type	?-MSH-derived tripeptide
Molecular formula	C16H30N4O4
Molecular weight	342.43 g/mol
CAS identifier	67727-97-3
Appearance	Not specified in published product profile
Storage reference	Lyophilised Solid Form: -20?C, protected from UV light and mo...

PEPTIDE SEQUENCE / STRUCTURAL IDENTITY

Lys-Pro-Val (KPV)

ANALYTICAL CERTIFICATE

No original batch analytical report is attached to this specification.
